News Release

Weatherford Announces Acquisition of Datagration

Houston, September 3, 2024 – Weatherford International plc (NASDAQ: WFRD) (“Weatherford” or the “Company”) today announced the acquisition of Datagration Solutions Inc., an innovator in unified data integration, analytics, and machine learning. The acquisition establishes Weatherford as having one of the industry's most capable and contemporary digital offerings for production and asset optimization and demonstrates its commitment to continuously driving innovation across its technology portfolio.

The integration of Weatherford’s digital offering with Datagration’s unified data models creates a powerful solution for surveillance, optimization, and decision-making across the well lifecycle. The combination enhances Weatherford’s capabilities in digital transformation and drives amplified synergies with its ForeSite®, CygNet®, and CENTRO® platforms. Furthermore, it improves digital enablement across the enterprise, creating operating efficiencies, and also allows for the integration of disparate emissions data to enhance emissions tracking, reporting, and overall sustainability management that will help deliver improved value to customers.

Girish Saligram, President and Chief Executive Officer of Weatherford, commented, “This acquisition of Datagration is another step forward as we continue to differentiate our technology portfolio. The addition will not only enhance our enterprise capabilities but also accelerate our innovation and growth in the digital transformation of the energy industry. We are excited to welcome the Datagration team to Weatherford and look forward to the value this acquisition will deliver to our customers in the future.”
